

SNS Payment Platform

Via Cloud

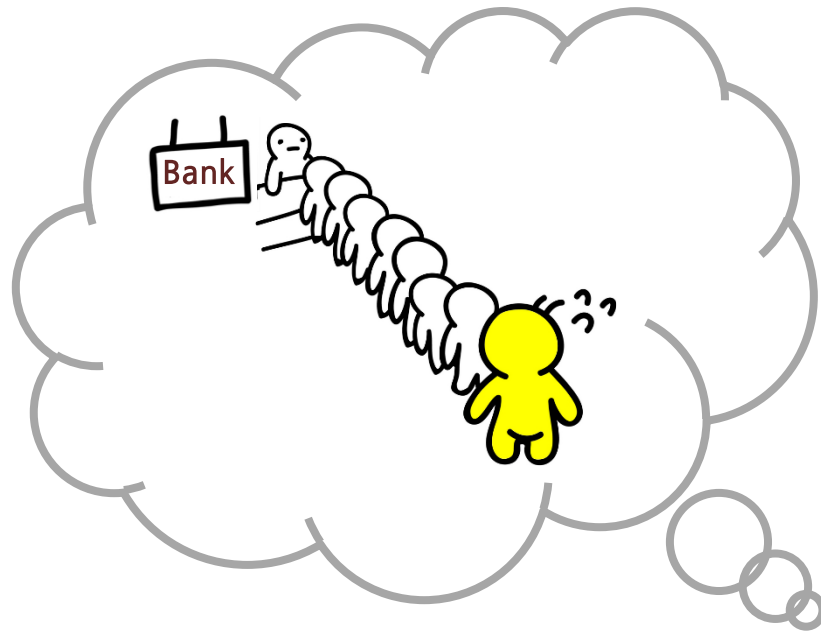

2015. 7. 8
Baikjun Choi | TILON, CEO

The Story Begins...

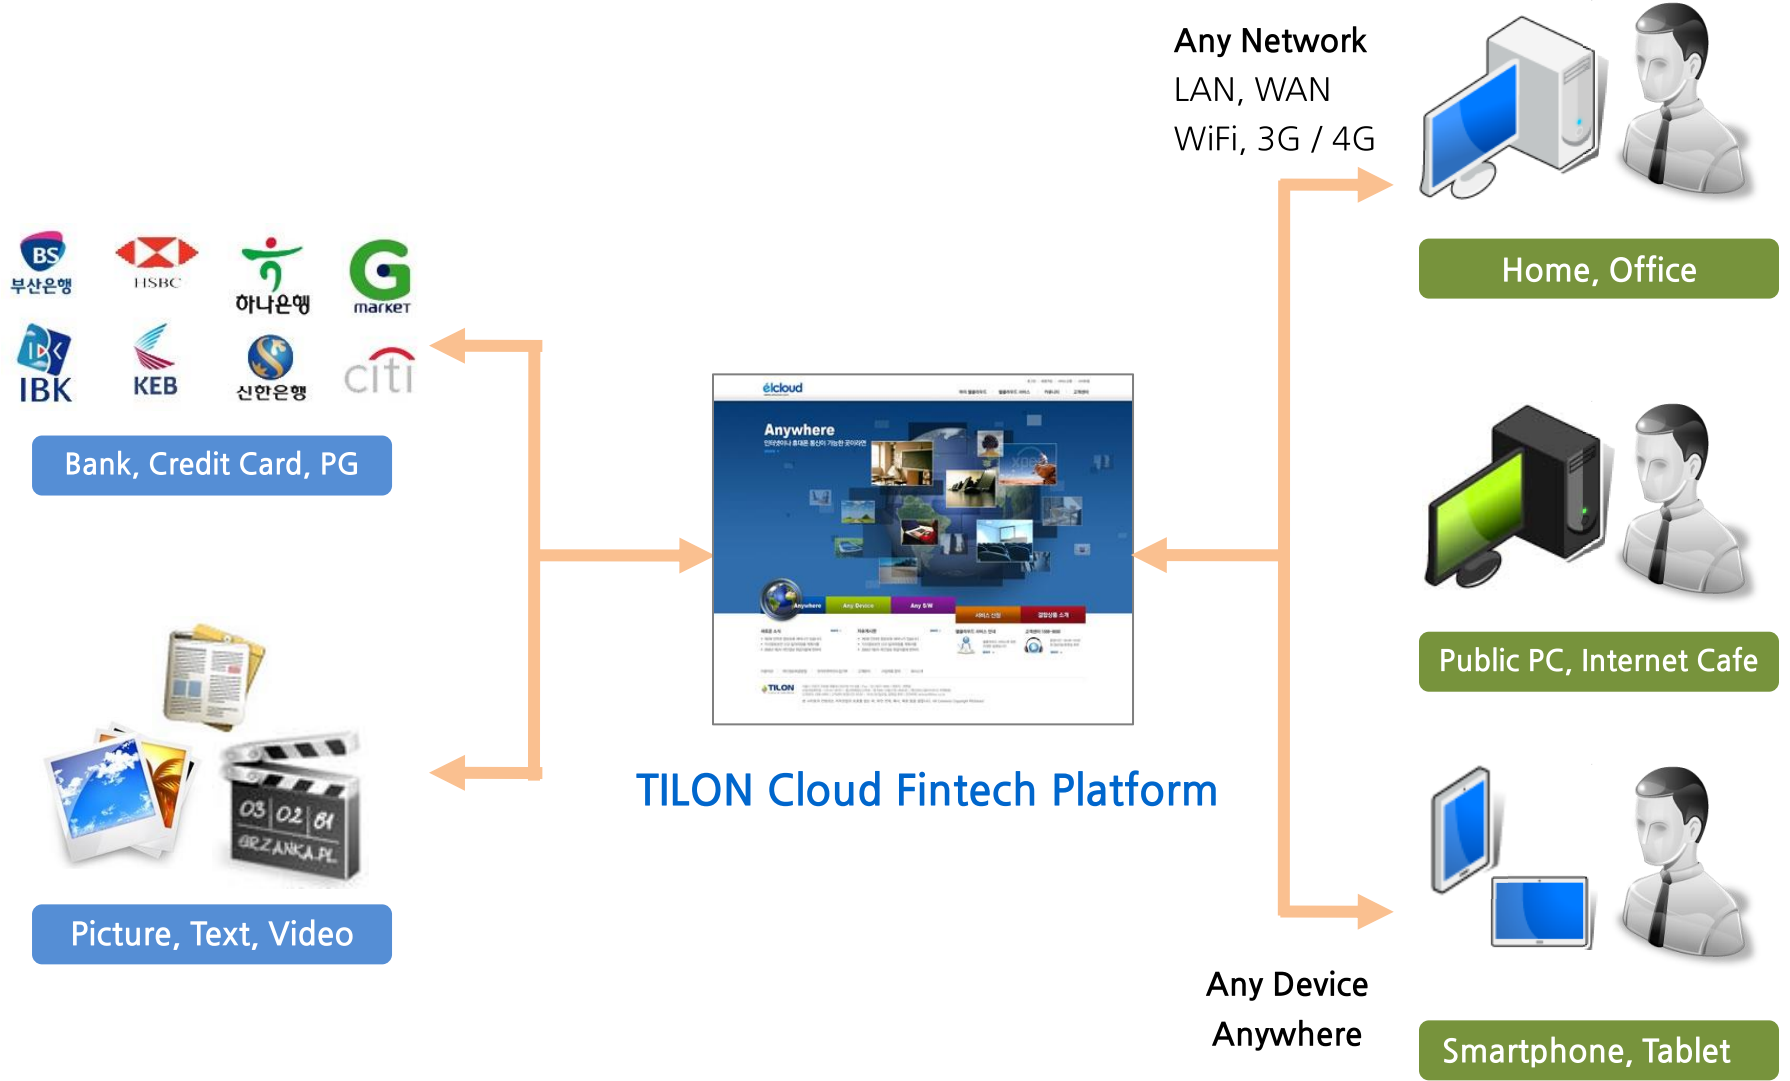

The Story Begins...

There is no need to
exchange or
withdraw!

Service Process

Advantages of Cloud Payment Platform

Forget the troublesome old way of payment.
It directly connects to your bank account and credit cards.

You can use any devices, access from everywhere.
Virtualized environment makes it possible.

There is no data leakage. All the processes run on the server system.
The core technology is widely applied for data loss prevention.

Reasonable commission and cash-back points.

No need to care about top-up or remainder.
